  - (e) Co CP moved to OBERHOF in the morning.
3. Co C, with 1st Rcn plat atchd (in D/S of 345th Inf Regt).
  - (a) The morning of 10 Apr 45 the elements of Co C were located in the following places: (1) Co CP at TAMBACH (0348); (2) 1st plat at (085470); (3) 2nd plat at (090444); 3rd plat at (065487). The mission of the 345th Inf Regt was to continue the attack to the East.
    - (b) 1st plat, with 1st Bn 345th Inf moved out from their reported location to attack and secure the town of STUTZHAUS (105470). Upon entering the town of STUTZHAUS they encountered small arms and heavy tank fire from the North, but were unable to get into position to fire on tanks due to the terrain. The bridge at (105472) was destroyed by the retreating Germans. One M-4 tank was knocked out by the German tank's fire. One tank and one TD placed fire in the general direction that the enemy fire was coming from. After firing approximately 6 rds of 90mm and some 75mm, the German tanks withdrew and the doughs mopped up the town. Tanks and TDs forded the stream and at 1200 the 1st Bn 345th started marching to their next objective of CRAWINKEL (1547). A few doughs rode the outside of the Tanks and TDs. German tanks were again encountered along the way and everytime the column came around a bend in the road the enemy tanks would fire a few rounds and then withdraw. There was no way for our tanks and TDs to deploy and take the German tanks under fire as the forest on each side of the road made everything road-bound. The German tanks eventually knocked out another M-4 vehicle which went up in flames. Small arms and automatic weapons fire were encountered all the way to the objective (CRAWINKEL) which was reached and taken at 2200. The plat had fired 4 rds HE, 2 APC, 500 rds .50 cal.
    - (c) 2nd plat, with 2nd Bn 345th Inf, moved out from their reported location and sent their advance elements into the town of SCHWARZWALD (110455). The bridge at (099446) was blown out by the retreating Germans and the Tanks and TDs forded the stream South of the blown bridge and entered the town. Little resistance was met and a few prisoners were taken. The mission of 2nd Bn 345th Regt with the 2nd plat atchd was to take the town of FRANKENMAIN (1544), GRAFENRODA (1743), LIEBENSTEIN (1945). The Bn moved out from SCHWARZWALD (110455) motorized and at 1600 headed SE on the road through a thick woods approximately 200 yds SE of the town. There it encountered small arms and MG fire. This was reduced by the Tanks and TDs. The Bn proceeded on for about 50 yds and as the lead tank came around a bend it received a hit from an AP shell fired from a German tank. The tank and TDs backed away from the bend and out of the German tank. The terrain was such that armor could not deploy. The 2nd Bn stopped for the night in the vicinity of (1242) at 2200. Fired 200 rds .50 cal MG.
    - (d) 3rd plat, with 3rd Bn 345th Inf, moved out and proceeded to assist the 1st Bn 345th to take the town of STUTZHAUS. Road blocks and small arms fire were encountered. The 3rd plat had the fire mission of liquidating some Germans who were dug in on the hill East of town. Mission was accomplished. 3rd Bn 345th went into reserve after entering the town.
