THIRD ON WEEK

CRUSADER DON LYNN

Coming in in almost a dead heat with Ace Earl Bennett, we find Crusader Don Lynn once more piling a good score on his already outstanding score on the year. Don is not one to forget that it is steady, consistent production that will, in the end, reap the biggest rewards and with that thought in mind he's sending in fine scores which keep him right up among the leaders on the year. How about stepping up your pace a bit, Don? That leading place on the year is just a stone's throw away and a cinch for you. For his fine work, Don again wins war stamps, bonus check and a substantial Pacemaker check.

LEADER ON WEEK

Subbing for
 ACE HOLLIS MASHBURN

There is not much of a jump from being leader on the week to becoming one of the five leaders on the year and the score which Ace Hollis Mashburn sends in week after week makes that supposition a certainty. Hollis is the type of man who goes ahead after bigger and bigger game and we'll always be right here to give him a pat on the back every time he is deserving of it. This week Hollis sent in a score which wins him war stamps and a very substantial bonus check, and we are certain he will be receiving many more in the weeks to come.

LEADER ON YEAR

Subbing for
 ACE EARL BENNETT

It is not unusual to find Ace Earl Bennett up among the leaders, and this week he sent in a score which not only landed him in second position on the week, but placed him in the lead on the year. Earl says that's a spot he's been aiming for for many a week now, and he intends to stay right there by dint of increased effort and bigger and better scores each week. For his fine work Earl receives war stamps and a bonus check.
